GROUP OF COMPANIES

AN ISO : 9001-2015 CERTIFIED CO.

AZIP GROUP OF COMPANIES

POWERING PERFORMANCE. DRIVING THE FUTURE.

AUTOMOTIVE LUBRICANTS DIVISION

Advanced engine oils and grease for optimal performance, protection and extended life.

INDUSTRIAL LUBRICANTS DIVISION

High-performance lubrication solutions for industries and heavy machinery.

EV TWO WHEELER DIVISION

Sustainable lubrication solutions for the future of electric mobility.

AUTO CARE DIVISION

Premium auto care products for cleaning, protection and vehicle maintenance.

BATTERY SOLUTIONS DIVISION

Reliable battery solutions for automotive and industrial applications.

QUALITY

Uncomprising quality in every product.

INNOVATION

Continuous innovation for better tomorrow.

TRUST

Built on trust, driven by commitment.

SUSTAINABILITY

Committed to a cleaner, greener and better future.

INDIA'S TRUSTED LUBRICANTS BRAND - NOW DRIVING THE FUTURE

COMPANY PROFILE

Azip Lubricants is a lubricants manufacturer producing high quality, well engineered lubricant products. Headquartered in Singapore, our team of professionals serve our customers in the world. Products are manufactured in our Lube Oil Blending Plant which is designed with flexibility to customize to customer requirements and we are equipped with a modern laboratory for quality assurance. Our services include customer, technical & logistics support, formulation development and laboratory analysis. Supported by a laboratory of R & D in constant evolution for the development of new products. In addition, it has the latest certificates in terms of quality and its products of competition have the approval of the highest bodies, such as the norms JASO. With the launch of the new generation products, we have completed an extensive catalog of lubricants and maintenance products that allows us to reach the following markets.

The popular worldwide brand Azip, produced in the heart of the motorcycling world, Singapore, has many years of experience and research into making some of the finest lubricants available today.

Azip Lubricants sells its products directly and through independent sales representatives in the India and exclusive distributors throughout the world.

Azip Lubricants market is specialized synthetic lubricants for the industrial and automotive market. While it competes with the major oil companies, these companies refine mainly for gasoline and other fuels with lubrication products produced only as a refining by product.

Azip Lubricants is not a fuel producer but exists solely for specialization of lubrication technology and has developed leading expertise over many years of intensive research and development.

Azip Lubricants knowledge and experience of and has the proper ways to formulate lubricants represent the latest state-of-art in lubrication technology. The product line includes more than different lubricants which vary from high temperature lubes to cryogenic oils and greases.

Azip Lubricants virtually has a lubricant for any application and prides itself on quality, performance and is dedicated to its customers.

Azip Lubricants has reputation for high quality products, meticulous quality control/assurance programs, and quick responses to the market and the individual customer's specialized needs.

Azip Lubricants management is highly experienced in lubrication products.

COMPANY PROFILE

On behalf of **Azip Lubricants Pvt Ltd**, I want to extend our deepest gratitude for your continued trust and loyalty. We are truly inspired by your support and consider you a valued partner in our journey.

Our team is dedicated to providing you with the highest quality products and exceptional customer service, always striving to understand and fulfill your unique needs. We are constantly innovating and improving to ensure you receive the best possible experience with every interaction.

Please don't hesitate to reach out if you have any questions or require assistance. We are here to support your success every step of the way.

We were launching continuously new products and services, thereby providing the customers with the best quality at the best price. I am happy to take this opportunity to inform everyone that the company is in the process of expanding into the next level of growth with unwavering support of all the distributors.

Sincerely,

Amit Kumar Saini

VISION

An international lubricant brand with a reputation for Performance, Value and Reliability

MISSION

- **Our Products** : To provide high performance, value-for-money and reliable products
- **Our Sales** : To increase sales from satisfied customers
- **Our Services** : To customize services to meet customers' needs
- **Our People** : To lead the organization with a competent and responsive management team

VALUES AND PHILOSOPHY

We believe in Reliably providing our customers with good performance products at a price Level considered as "Value for Money. With today's technology developing rapidly requiring engineering performing lubricants, We are committed to meet industry demands with a range of products that is technology led. Giving our customers 'Value for Money' continues to be our company's core value. This enables our customers to be more competitive using the full set of benefits from our competitively priced products. In addition to producing our range of Azip brand of lubricants, we also provide contract blending services for private labels and supply high quality base oils and additives to our associates. We believe that more important to this hardware is our people who are responsive to our customer needs and are willing to customize our services. We believe in strong win-win partnerships with our suppliers and customers. We are committed to creating for our staff a working environment that improves continuously and is innovative.

MISSION

VISION

VALUES

COMPANY STRENGTHS

- **Innovation** - Always on the lookout for emerging technologies and new materials to stay ahead.
- **Continuous Improvement** - Dedicated to R & D.
- **Flexibility** - Prompt & responsive in meeting customer needs.
- **Form Alliance with Customers** - Understand and work with customers to provide customized services.
- **High Quality Standards of Products & Services** - Decrease downtime, extend life of major capital assets and reduce cost associated with heavy fleet and equipment maintenance.
- **Total Customer Support** - Experience team of professionals offering product selection, product knowledge, training and logistics support.

PRACTICAL GUIDE TO OIL ANALYSIS

The practice of oil analysis has drastically changed from its original inception in the railroad industry. In today's computer and information age, oil analysis has evolved into a mandatory tool in your reliability-centered maintenance program. As a predictive maintenance tool, oil analysis is used to uncover, isolate and offer solutions for abnormal lubricant and machine conditions. These abnormalities, if left unchecked, usually result in extensive, sometimes catastrophic damage causing lost production, extensive repair costs, and even operator accidents. The goal of a world-class oil analysis program is to increase the reliability and availability of your machinery, while minimizing maintenance costs associated with oil change-out, labor, repairs, and downtime. Accomplishing your goal takes time, training and patience. However, the results are dramatic and the documented savings in cost avoidance are significant! We have seen savings of up to 35 or 40% in savings for less use of spare parts.

WHY ANALYZE USED LUBRICANTS?

There are three aspects of oil analysis: Lubricant Condition, Contaminants and Machine Wear. Let see each one of them.

- **Lubricant Condition** : The assessment of the lubricant condition reveals whether the system fluid is healthy and fit for further service, or is ready for a change.
- **Contaminants** : Increased contaminants from the surrounding environment in the form of dirt, water and process contamination are the leading cause of machine degradation and failure.

Increased contamination alerts you to take action in order to save the oil and avoid unnecessary machine wear.

- **Machine Wear** : An unhealthy machine generates wear particles at an exponential rate. The detection and analysis of these particles assist in making critical maintenance decisions. Remember, healthy and clean oil lead to the minimization of machine wear

WHAT ARE LUBRICANTS?

Industrial oils are specially designed fluids composed of base oil and a compliment of additives. The **Base Oil** performs the following functions:

- Form a fluid film between moving parts in order to reduce friction and wear.
- Carry away contaminants to the filter.
- Remove heat generated within the machine.

Additives are chemical compounds added to the base oil to significantly enhance the performance characteristics of the lubricant oil or to reduce the negative ones. Typical enhanced properties include:

- Oxidation stability.
- Wear protection.
- Corrosion inhibition.

FUNCTIONS OF A LUBRICANT?

It goes from cooling to cleaning to lubricating it is the absolute key to keeping your equipment running. Let's see how it does it:

- **Lubricate** : By introducing a film between moving parts, opposing friction surfaces are separated and allowed to move freely without any interlocking of the asperities at the metal surface. By physically separating the moving parts, friction is greatly reduced. The result is less wear generated and less energy required to perform the work.
- **Cool** : Lubricants absorb the heat generated at the friction surface and carry it away to a reservoir where it is allowed to cool before returning to service. Oil coolers and heat exchangers are sometime used to more efficiently disperse heat. Lubricants are an excellent dissipater of heat.
- **Clean** : Oil picks up solid contaminants and moves them away from the contact zone. The contaminants can then be removed by filtration or settling in the reservoir. Many oils have detergent characteristics to hold tiny dirt and soot particles in suspension and help prevent sludge and varnish in a system.
- **Protect** : Lubricants coat component surfaces providing a barrier against moisture. The presence of moisture in the air causes oxidation, eventually leading to corrosion. Rust occurs when steel surfaces are attacked by moisture. Corrosion occurs when a metal surface is attacked by acids, a byproduct of oxidation. Oils can be fortified with alkaline reserves to counter the corrosive contaminants.
- **Seal** : Many lubricants form a viscous seal to keep contaminants out of a component. Greases form physical barriers to protect against dirt and water ingress.
- **Transmit Power** : Hydraulic systems use lubricants to protect sliding, contacting surfaces and as a source of fluid power. Fluid under pressure actuates moving parts.

WE ARE SPECIALISTS WITH THE WIDEST RANGE

To satisfy the demands of a wide range of transportation & industry, Azip Lubricants offers a comprehensive range of lubricant products that performed consistently at the highest level.

PREMIUM RANGE

To meet the demands for racing and extreme applications, we formulate this range with the most advanced components & latest technology. The range uses synthetic base oils which has naturally high viscosity index & superior thermo-stability and meet highest API (American Petroleum Institute).

PASSENGER CAR MOTOR OILS

Our wide range of products has the formulation for your car engine lubrication needs. We have Synthetic Oils (, Synthetic Blends and products from mineral oils meeting the Highest API Standards to give you the right balance between performance and value.

DIESEL ENGINE OILS

Fuel economy, low emissions & extended drain capability are key performance features of our range of lubrication products for the diesel engines. We have Synthetic Oils, Synthetic Blends and blends from Hydro cracked Base Oils and products from mineral oils meeting the highest API Standards to give you value and reliability which are important to your business.

MOTORCYCLES OILS

Our passion for motorcycles has developed a range of products that makes your machine more exciting. Our wide product range are specially formulated for various engine requirements with Synthetic and group 2 Hydro cracked Base Oil blends. We have the right product for your large touring motorbike, performance racers & scooters such as Motor bikes.

GEAR/TRANSMISSION ATF OIL

Our range of Gear Oils gives you high efficiency and enhanced wear protection for long life. We are also reputed to be a specialist on Automatic Transmission Fluids (ATF) with the widest range. Our products are tailored to your specific transmission needs whether it is Dual Clutch, CVT, MV High or Low.

SPECIALITIES OILS

Coolants, Anti-Freeze, Brake Fluids Chain Lube & Oil Treatment After-Market range of products

GREASES

To satisfy the demands of a wide range of industries, Azip Lubricants offers a comprehensive line of greases for wet & dusty conditions, long life, high-temperature service, severe conditions with shock & heavy loads.

DIESEL ENGINE OIL

TURBO MAX

API CI4+

15W-40

Azip Turbo Max is a premium quality multigrade diesel engine oil designed to provide excellent engine lubrication in turbo-charged as well as naturally aspirated diesel engines. Formulated with highly hydro processed base oils and carefully selected additive chemistry, Azip Turbo Max is designed to provide exceptional viscosity/temperature characteristics, superior TBN retentivity and high soot dispersancy required for turbo-charged engines.

PACK SIZE

1L, 3L, 3.5L, 5L, 6L, 7L, 7.5L, 8.5L, 10L, 15L, 50L, 210L

TURBO SUPER

API CH4

15W-40

Azip Turbo Super CH-4 15W40 is a diesel engine oil which meets international specifications for top performance and long service life in turbo-charged and normally aspirated diesel engines. Azip Turbo Super CH4 15W40 is specifically designed to meet the performance levels required for the new generation of cooled EGR Engines. It is uniquely formulated to promote the highest standards of engine cleanliness in modern highly stressed turbo charged engines.

PACK SIZE

500ml, 1L, 1.2L, 2.5L, 3L, 3.5L, 5L, 6L, 7L, 7.5L, 8.5L, 10L, 13L, 15L, 50L, 210L

DESIGNED FOR COMPLETE PROTECTION

CLEANER PISTONS

Keeps pistons cleaner than the toughest industry standards.

BETTER FUEL ECONOMY

Drive on average an extra km per year vs. a dirty engine

PROTECTS HORSEPOWER

Helps protect engines from loss of power

UNSURPASSED WEAR PROTECTION

No other leading motor oil provides better protection from friction

EXCELLENT PERFORMANCE IN EXTREME TEMPERATURES

In extreme temperatures: Provides faster low temperature oil flow and protects in extreme heat.

DIESEL ENGINE OIL

DIESEL SUPER

API CH4

20W-40

Azip Diesel Super is premium multigrade Diesel Engine Oil. 20W40 CH4 is recommended by Azip for use in all naturally aspirated diesel engines fitted in trucks, tractors, buses, passenger car, goods carrier (LCVs), off highway equipment, 3-wheelers, Gensets and agricultural equipments.

PACK SIZE

1L, 3L, 3.5, 5L, 6L, 7.5L, 10L, 50L, 210L

TRACTOR RAKSHAK

API CF4

20W-40

AZIP Tractor Rakshak 20W-40 is a high-performance multigrade diesel engine oil. Manufactured from high-quality base oils, it provides superior protection by reducing friction between moving engine parts. Its Advanced Additive Technology fights acid formation to protect vital engine components from corrosion, resulting in longer engine life.

PACK SIZE

1L, 5L, 6L, 7.5L, 8.5L, 10L, 13L, 50L, 210L

VISCO SUPER

API CF4

20W-50

Azip Visco Super 20W-50 are multigrade engine oils made from high quality base stocks and additives. They are available in 20W-50 viscometrics.

Features and Benefits

- Outstanding engine cleanliness.
- High oxidation stability.
- Improved wear protection & extended engine life.
- Improved fuel economy.

TRANSMISSION OIL

UTTO

WET BRAKE OIL

01B

Azip Universal Tractor Transmission Oil is a high performance fluid specially formulated with robust anti-wear & extreme pressure additives for use in Tractors and Off-road construction and mining equipment where a common lubricant reservoir serves transmissions, final drives & hydraulic systems and requires such type of fluid.

PACK SIZE

5L, 10L, 26L, 50L, 210L

UTTO SUPREME

WET BRAKE OIL

FULLY SYNTHETIC

AZIP UTTO SUPREME is a full synthetic, multi-functional API GL-5 tractor fluid designed for a wide range of agricultural applications that require a true Universal Tractor Transmission Oil (UTTO). This all-season, ultra-high-performance fluid is specifically formulated for agricultural and construction equipment, providing optimal performance in hydrostatic transmissions, wet brakes, and hydraulic systems.

PACK SIZE

20L, 26L, 50L, 210L

TRANSMISSION OIL

DEX III H / MERC

ATF

Azip ATF DEX III H / MERC is an automatic transmission fluid developed for the automatic transmissions and power steering systems of vehicles specifying use of General Motors DEX III H / MERC quality fluids. The highly refined base oils and proven performance additives used in this oil provide enhanced thermal stability, frictional characteristics and rust & corrosion protection. It exceeds the performance requirements of General Motors.

ULTRA SHINE

POLISH

AZIP Ultra Shine polish is designed with Singapore technology to leave painted surfaces and plastic with a high gloss finish, ready to be sealed. Featuring a blend of durable resins that produce unparalleled levels of gloss and nano-tech quartz technology.

PACK SIZE Pouch Sponge, 120ml

ENGINE FLUSH

CAR & SUV

Azip Engine Flush is a high-performance engine cleaning solution specially formulated to remove harmful sludge, deposits, and contaminants from your engine before an oil change. Designed for petrol, diesel, and CNG engines, it helps restore engine efficiency and prolong engine life. This advanced formula works quickly to dissolve carbon build-up, unclog oil passages, and improve overall lubrication. Regular use ensures smoother engine operation.

PASSENGER CAR OIL

MAGNATE SUPER

API SN

5W-30

Azip Magnate Super 5W-30 oil is a common motor oil viscosity that's recommended by many auto manufacturers for use in all types of modern vehicles BS 6 Bikes, passenger cars, SUVs & light vans including high-performance turbo-charged and supercharged engines. AZIP Formula is an advanced passenger car motor oil Specially developed for high performance luxury cars powered by petrol or diesel.

PACK SIZE

600ml, 1L, 3L, 3.5L, 50L, 210L

MAGNATE SUPER

API SP

5W-30

AZIP 5W-30 oil is a common motor oil viscosity that's recommended by many auto manufacturers for use in all types of modern vehicles – passenger cars, SUVs & light vans including high-performance turbo-charged and supercharged engines. AZIP Formula is an advanced passenger car motor oil Specially developed for high performance luxury cars powered by petrol or diesel.

PACK SIZE

3L, 3.5L, 50L, 210L

MEGNATE SUV

API SN

5W-40

Azip Megnate SUV 5W-40 utilizes the positive properties of tungsten to smooth the surface structure of the motor, reducing friction and wear, and significantly improving mechanical efficiency. 5W-40 minimizes friction, wear and fuel consumption with excellent cold start characteristics. 5W-40 operational safety concerning all driving conditions as for example regarding extreme stop and go traffic as well as high speed drives on motorways.

PACK SIZE

3L, 3.5L, 50L, 210L

PASSENGER CAR OIL

ULTRA SUPER

API SP

0W-20

AZIP 0W-20 engine oil inspired from the competition and specially designed for Gasoline or Diesel engines, tuned or high performance, naturally aspirated or turbocharged, indirect or direct injection, and operating over a wide range of engine revs and temperatures, in the most severe road or racing conditions. Suitable for all types of Gasoline fuels, leaded or unleaded, Ethanol, LPG, Diesels and biofuels.

PACK SIZE

1L, 3L, 3.5L, 50L, 210L

GASOLINE SUPER

API SM

20W-50

Azip Gasoline Super 20W-50 is a premium quality engine oil developed for autos, passenger cars and minivans running on CNG/LPG/PETROL. The product is made from highly paraffinic base stocks and fortified with select additives to deliver superior performance benefits. Azip is available in 20W50 viscometrics. The superior additive chemistry ensures protection against oxidation and nitration caused due to high temperature combustion of CNG/LPG/PETROL Fuels in Engine.

PACK SIZE

1L, 3L, 3.5L, 50L, 210L

CNG SPECIAL

API SM

20W-50

Azip Cng Special are gas engine oils intended for use in light-duty vehicles running on Compressed Natural Gas (CNG), Liquefied Petroleum Gas (LPG) or propane. It is formulated from selected additives to provide superior detergency and dispersancy, oxidation and nitration resistance and protection against engine wear and corrosion.

PACK SIZE

1L, 2L, 3L, 20L, 50L, 210L

PREMIUM GEL GREASE

NLGI-3

Azip Premium Gel Grease is a premium quality, super smooth, transparent look, and extra long life lubricating grease. It is developed from selected base oil, special lithium semi - complex thickener technology and advance additives package. It gives optimum mechanical & thermal stability that ensures best suitability for wheel bearings of passenger cars, farm equipments, off and on highway commercial vehicles and new generation multi - axle trucks for long haul service. This product has NLGI 3 consistency.

PACK SIZE

200g, 500g, 1KG, 2KG, 3KG, 5KG, 7KG, 10KG, 18KG, 50KG, 180KG

LONG RUN GREASE

NLGI-3

Azip Long Life Grease is a high performance lithium complex grease designed for lubrication of bearings of most automotive and industrial equipment. This grease is based on high quality mineral base fluid and superior lithium complex soap thickener fortified with excellent anti-oxidant, anti-rust and anti-wear additive systems. This grease provides long term protection to the rolling elements over a wide temperature range.

PACK SIZE

500g, 1KG, 2KG, 3KG, 5KG, 7KG, 10KG, 18KG, 50KG, 180KG

GREASE

AP-3 GREASE

NLGI-3

Azip AP-3 Grease is based multi-functional, water resistant multi-purpose grease. It is manufactured from high quality base stocks, superior quality and performance additives. This product is multi-purpose grease of NLGI 3 consistency.

PACK SIZE

500g, 1KG, 2KG, 3KG, 5KG, 10KG, 18KG, 50KG, 180KG

CHASSIS GREASE

NLGI-3

Azip Chassis Grease is a premium quality calcium soap thickened grease produced from low volatile high viscosity index mineral oils, superior fats/fatty acids and a synergistic blend of additives and performance boosters. Chassis Grease are water resistant and fortified with tackifier to provide excellent film forming characteristics. It conforms to BIS: 506-1993 specifications for automotive greases.

PACK SIZE

18KG, 50KG, 180KG

WHEEL BEARING GREASE

IS : 10647 : 1983

Azip Wheel Bearing Grease Special is a soft fibrous grease manufactured specially for lubrication of automotive wheel bearings using high quality mineral base oil and sodium thickener. It is characterised by good oxidation stability and thermal stability which makes it highly suitable for automotive wheel bearing applications.

PACK SIZE

18KG, 50KG, 180KG
